The Easter Seals Iowa Assistive Technology Program is made possible through funding from the Center for Disabilities and Development at University of Iowa Health Care supported by the State AT Program grant from the U.S. Department of Health and Human Services Administration for Community Living. Its contents are solely the responsibility of the authors and do not necessarily represent the official views of the Administration for Community Living or HHS.

Assistive Technology Program

Assistive Technology Center

The Easter Seals Iowa Assistive Technology Program helps Iowans learn about and access the assistive technology (AT) they need as part of their daily lives to learn, work, play and participate in community life safely and independently.

Demonstration Center

The demonstration center is a valuable resource that showcases different types of assistive technologies to clients before it is brought to their homes.

- Grab bars to assist with balance and stability
- Weighted utensils and adapted plates for eating
- Lifts and other items to make bathing easier
- Dressing aids to assist with putting on clothes
- Writing aids such as weighted or large grip pens

Equipment Loan

Equipment Loan provides refurbished durable medical equipment -- such as wheelchairs, electric hospital beds, commodes and bath benches -- to individuals in need, at a low cost. Equipment is available by application and requires a prescription from a medical professional prior to obtaining the equipment. Access an application online at www.easterseals.com/ia/at.

Although there is no limit to the amount of time clients may use the equipment, clients are asked to return the equipment when they no longer need it.

The Equipment Loan program operates solely through donations of quality, durable medical equipment. We accept items in good to excellent condition. Call 515.309.2395 or email atinfo@eastersealsia.org to arrange an appointment to deliver a donation to the Assistive Technology Center, located at 401 NE 66th Avenue in Des Moines, Iowa.

All donated equipment is checked for safety standards, refurbished and sanitized before it is loaned to individuals in need.

If you have equipment no longer in use, please consider donating it to Easter Seals Iowa. Your donation may be tax deductible. Please consult with your professional tax and/or financial advisors.

Lending Library

Equipment and resources are available for families, individuals, counselors and schools. The lending library is a great way to make sure a product works for you before making a purchase. It is free to all Iowans and five items may be checked out at a time for up to 30 days.

Iowa Assistive Technology Exchange

A "classified ads" feature that connects people with available assistive technology. Visit eastersealsia.at4all.com to see current items.
